THE SENATORSHIP.

The announcement that the senatorship rendered vacant by the death of the late Mr. Hardisty has been filled by the appointment of a Mr. Lougheed, of Calgary, will be a surprise to the people of the Saskatchewan, and indeed to most people in the Territories. It may not be impertinent to ask who Mr. Lougheed is, and what evidence has he ever given of his fitness for the position? He is not known in this District, and as far as we can ascertain, he is simply Mr. Lougheed, an advocate of no extraordinary ability. Rumor has it that he was recently gazetted a Q.C., doubtless for the same cause that he was called to the Senate. Mr. Lougheed has never came to the front in political matters in the Northwest, nor anywhere else, and certainly was not deserving of recognition on account of any services he had rendered either to the State or to the Conservative party, and senators—we understand — are usually selected for one of these reasons, a due regard being had to their fitness in other respects. Mr. Lougheed is doubtless a very estimable gentleman and may fill the role of senator very creditably, and we do not blame him for grasping at the position, but we blame the Government for the selection they have made. We consider that there are other men in the Territories who are as well qualified in every respect, who have had more experience, have done more for the country and whose appointment would have been more acceptable to the people of the Territories. Mr. Lougheed evidently had more friends at court than any one else, and to that fact alone does he owe his elevation to the Senate.

A GOOD APPOINTMENT.

Lieut.-Col. C. Boulton has been called to the Senate as successor to Lieut.-Governor Schultz, of Winnipeg. Col. Boulton will be remembered as the author of "Reminiscences of Two Rebellions," an account of the Red River rebellion of 1869 70 and the Northwest rebellion of 1885, in the suppression of both of which he took a prominent part. He was an unsuccessful candidate for the representation of the county of Marquette, in Manitoba, in the general election of 1887, and has for a long time taken a prominent interest in the affairs of Manitoba and the Northwest. His appointment is a good one, one which we believe will be acceptable to the people of Manitoba, and which was merited by a career of usefulness in the services of his country.

REPUBLICANISM.

Since the Brazillian revolution a number of Republicans are popping up in all parts of the world predicting a republic for Australia, Canada and all the monarchies of the continent of Europe. These speculations are the output of harebrained theorists who have the loosest ideas of the science of government or the principles of true liberty. Carried away by events which are of local importance, they imagine that all the great nations of the earth are on the eve of a sudden change. The wisest students of political science speak more modestly and are careful not to commit themselves to predictions which, at best, rest for fulfilment upon very mutable conditions.

BRITISH COLUMBIA.

The reconstructed Ministry in British Columbia seems to be doing very well, and although the political and commercial life of the province sustained severe losses this year, owing to the deaths of Mr. Davie, the Premier, and Mr. Dunsmuir, the intrepid capitalist, the new Government appears to possess the general confidence. Premier Robson addressed a public meeting at Kamloops recently, and dealt with the future policy to be pursued. He referred to the likelihood of an amicable arrangement between the Provincial and Federal authorities regarding the minerals, to an agreement by which the Shuswap and Okanagan railway, opening up a valuable section of the interior through which the Canadian Pacific passes, may speedily be constructed, and the encouragement of other routes by which the rich Kootenay district may be made more accessible. The increase of trade and the improvement of internal communication are coincident with a growth of population, and the Premier announced that the popular representation in the Legislature will have to be added to. Altogether the prospects for British Columbia are excellent, and all Canadians will be glad to know it.

MACDOWALL BANQUET

By the Metis at Batoche.

A banquet was tendered at Batoche to Mr. Macdowall, M.P., on Tuesday night last, by the native French population of that district, which was a great success. Nearly forty citizens, representing Duck Lake, St. Laurent, Fish Creek and Batoche had assembled to do honor to the guest. Mr. Sheriff Hughes and Mr. Thos. McKay, of Prince Albert, and Indian Agent McKenzie, who had been iuvited, were also present as well as the Rev. Fathers Fourmond and Moulin. There was a splendid spread and after ample justice had been done to it and the cloth removed, the president, Mr. E. Champagne, proposed the toast "Our Queen," which was duly honored.

Mr. Chas. Nolin, on rising to present the toast "Our Guest," made a lengthy speech in which he dealt with the policy of the Conservative Government in the Northwest, which he eulogized, but claimed that there was a lot to do yet respecting this district. He said all the rebellion losses, incurred by destruction and confiscation of property after the surrender at Batoche, should be paid and that police barracks should be erected in this place as already promised by the Government. He next advocated the subdivision of this district and spoke on the policy of the Northwest legislators, whom he considered were pursuing a very unjust and false course in trying to abolish the French language and separate schools In conclusion Mr. Nolin said the people of this district were proud of their member to the Ottawa Parliament and hoped he would do his best in the future, as he had done in the past, to promote the interests of his constituents.

Mr. Macdowall, upon rising, was greeted with hearty and prolonged cheers. He said he was very proud of the honor and good will he was receiving from the French people of his constituency and thanked Mr Nolin for the kind words he expressed in reference to him. Mr. Macdowall said a railway was being built which would pass through Batoche settlement, and as men here were as good as elsewhere they would secure employment and hoped the whole population would reap the benefit of it. As to the rebellion losses, he said it was a very delicate question and one that required careful consideration, and he would not like to hold out expectations which would not be realized, but he had the courage to tell them not to lose hope. He had correspondence last summer about the police barracks and learned that a sum of money had been voted for that purpose and trusted that the barracks would be built. The question of giving a yoke of oxen to poor families to work with was a good idea. As to the French language and separate schools, the Dominion Parliament had already given proof that they want justice done to all. Such men as Sir Hector Langevin, Mr. Chapleau and Sir Adolphe Caron being in the Cabinet was a guarantee to them that their rights would be respected. Such men as the Bishop of Rupert's Land, Dr. King and Principal Grant advocated the teaching of religion in the schools.

Your correspondent cannot do justice to Mr. Macdowell's speech, which was splendid and he took his seat amidst deafening and prolonged cheering.

The toast of "The Clergy" was responded to by Rev. Father Fourmond, of St. Laurent, who said he was glad to be present and during his remarks advised the natives to stay on their farms, which were fast increasing in value.

Mr. X. Batoche proposed the health of Mr. Thos. McKay, who, he said had always been a true friend of the French Metis and who had always advocated their cause both by his advice and influence.

Mr. McKay, on rising, was greeted with cheers. He said the majority of the assembly wished him to address them in the Cree language, and asked those who could not understaad Cree to take it for granted that it was all right. He then proceeded in Cree at length and the conclusion your correspondent came to is, that by the manner he was cheered all through he must have fully satisfied them.

Mr. Geo. Fisher next proposed a toast to the health of Mr. Sheriff Hughes, who answered in his usual pleasant manner, and spoke in French.

Indian Agent McKenzie, of Duck Lake, was next honored, and in reply made a very neat speech.

Songs were then given by Messrs. Gingras, Legare and Caron, and were well received.

The entertainment was brought to a close by the singing of God Save the Queen, and the assembly dispersed at a late hour.

Coughs, Colds, Croup.

Allen's Lung Balsam was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that **it is warranted to break up the most distressing cough in a few hours' time**, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs. ALLEN'S LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and $1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balsam, call for a 25-cent bottle to test it.

ST. ANN'S CONVENT.

Last spring workmen began the erection of a new building for the St. Ann's Convent which will cost them about $10,000, and which is one of the finest in the Territories. The structure is two stories high with a mansard roof and built of red brick on a stone foundation. It is seventy feet long by forty feet deep. A vestibule, eight feet wide, at the front leads into a hall, twenty feet wide, from which open three doors into three large rooms, the partitions between which are so constructed that at any time they can be removed so as to make the whole three rooms into one. From the hall two flights of stairs lead to the second story, which is laid off similar to the lower one, only that the walls are solid. From the second story two flights of stairs lead to the third and one to the tower in which is a door leading on to the roof of the main building. The third flat will not be finished at present, but when it is, it will be used as an art gallery. The ceilings are twelve feet high and the floors double deafened so that sounds cannot be heard through them. The rooms are all wainscoted and well finished throughout and when the carpenters leave the building it will be most complete and warm. Two balconies run around on the south and west side of the building on to each of which four doors lead, and from the second to the lower balcony two flights of stairs lead. The roof is finished with the newest pattern of East Lake metalic shingles, which look well. Under the centre of the building is a fine large cellar eighteen feet wide by forty feet long, in which two furnaces are to be placed which will heat the building by hot water. Mr. Wm. Fawcett is the architect and builder and Contractor Congdon did the mason, brickwork and plastering. Rev. Mother Collings is to be congratulated for her energy and enterprise in putting up such a fine building, one which will add greatly to the appearance and solidity of our town.

BATOCHE.

The contractor Madigan passed through here coming from his camp. He is on his way to Regina via Saskatoon. He has fifty men at work, turning out 1,000 ties a day.

Fur is plentiful this winter, and our merchants are packing it in great style.

The Rossin House on this side of the river and the Alexander hotel on the other side are both doing a rushing business with the lumber men.

On the whole, Batoche is booming.

The sale of lots on the Macarthur estate which was held on Wednesday evening last, was a success, a large number of lots being disposed of at good figures. Eighty acres was sold off the rear of the property, the price paid being $22 per acre. About $5,000 was realized altogether.

We note with pleasure that our enterprising contemporary THE WINNIPEG SIFTINGS has added some new and attractive features, which render it a peer of the best eastern weeklies. SIFTINGS, under the present management, has grown steadily in public favor, till now it stands as the only distinctly Canadian journal of its class. We will send THE TIMES and SIFTINGS for one year to any address for $2 50.
